IT HAS BEEN SAID that a proverb is a short sentence based on long experience. Whether you're young or old, proverbs can open your mind to new ways of seeing the world.

We underestimate children when we assume they are incapable of understanding metaphor and deeper meaning. Children learn in multiple ways, and for each method by which they learn, they need their imaginations engaged and their visual sensibilities ignited. And as adults, we underestimate ourselves when we allow our lives to be about practical matters only. Proverbs can stir our souls and spark our imaginations.

In *African Proverbs For All Ages*, noted anthropologist and educator JOHNNETTA BETSCH COLE and award-winning author and illustrator NELDA LATEEF invite children and adults to explore and reflect on complex notions about relationships, identity, society, and the human condition.
